 <p>Spang & Company recognized the importance of fortifying their security stance amidst growing concerns. With a focus on leveraging their investment in M365 E5 licenses, they turned to eGroup Enabling Technologies for guidance. Their strategic aim was not only to advance towards a zero-trust framework but also to secure ongoing assistance in managing and monitoring their security initiatives.</p>	 <p>eGroup Enabling Technologies' experts conducted in-depth discussions with Spang & Company to understand their objectives for the collaboration. Following thorough deliberations, the decision was made to implement eGroup Enabling Technologies' MSSP/MXDR Managed Services. This tailored solution was deemed the optimal fit to address the organization's requirements and bolster their security measures effectively.</p>	 <p>Spang & Company experienced significant benefits from partnering with the experts from eGroup Enabling Technologies. The continuous support and efficient management of security alerts has offered Spang & Company the reassurance they desired. Recognizing the limitations of a lean team, the company realized the necessity of external assistance to effectively manage security alerts round the clock. By leveraging the expertise and value provided by eGroup Enabling Technologies, Spang & Company is saving valuable time and resources while ensuring strong security measures.</p>	<p>Partner Mike Short, Account Executive</p> <p>Contractual Value <i>Driving Usage of M365 E5</i></p>
