CHALLENGE	SOLUTION	OUTCOMES	TEAM
 <p>GSP International Airport was challenged with an outdated and cumbersome backup system that urgently required an upgrade. Recognizing the need for modernization, the airport sought the expertise of eGroup Enabling Technologies to facilitate the transition to a more efficient and effective backup solution.</p>	 <p>Collaborating closely, the experts from eGroup Enabling Technologies and GSP International Airport meticulously analyzed the requirements and options for modernizing the backup system. Following extensive deliberation, Cohesity's solution emerged as the optimal choice to meet the airport's needs.</p>	 <p>eGroup Enabling Technologies successfully modernized GSP International Airport's backup solution, enhancing resiliency against ransomware attacks and transitioning away from their legacy solution.</p> <p>The team addressed the airport's recovery concerns by implementing an additional DR cluster allowing them to no longer be dependent of running the airport on one, on-prem data center, ensuring continuity in the event of a primary data center outage.</p>	<p>Cohesity Account Executive Teddy Lawhead</p> <p>Cohesity SE Michael Wolfe</p> <p>Partner Clint Boyleston, Account Executive</p>
