May 2024	SMC	Healthcare	5,000 employees	Migrating archival data	Azure	eGroup Enabling Technologies	Tallahassee Memorial Hospital	On-Prem NAS, AWS
CHALLENGE	SOLUTION			OUTCOMES		TEAM		
<p>Tallahassee Memorial Hospital (TMH) will be migrating to Epic in 2025 and wishes to migrate archival data and other EMR-related content to Microsoft Azure storage services. This will provide access to the content for migration efforts to both internal and external resources.</p>	<p>eGroup Enabling Technologies will follow the Microsoft Cloud Adoption Framework by offering planning and initial deployment services. TMH can expect the following out of this project:</p> <p>-Discovery & Design: review & create a deployment plan, including data migration requirements, governance, security, role-based access controls, regulatory compliance, cost management, & scalable storage & compute needs.</p> <p>-Azure Landing Zone Implementation: organize cloud resources effectively.</p> <p>Additionally, eGroup Enabling Technologies will provide 24 hours of post-engagement support for configuration changes once the data migration vendor is selected.</p>			<p>Discovery & Design: This included planning the data migration, governance, security, and cost management phases.</p> <p>TMH is now finalizing their vendor selections before proceeding with the data migration. This step is crucial for executing the migration according to the established plan.</p>		<p>Account Executive Laura Sikora</p> <p>CSAM Thomas Allen</p> <p>Azure Specialist Tiffany Traynum</p> <p>Azure Data & AI Donald Rossberg</p> <p>Partner Chad Lanman, Account Executive</p> <p>Licensing Value -est. \$50k annually</p>
