CHALLENGE		SOLUTION		OUTCOMES		TEAM		
<p>Alabama Community College System were looking to design a consolidation of their existing (24) Active Directory forests and M365 tenants into a new single Active Directory forest/domain and M365 tenant. Additionally, they wanted to plan for Intune and Autopilot for managing and deploying Windows devices.</p>		<p>The solutions were Active Directory Consolidation, M365 Tenant Consolidation, Intune, and Autopilot PDS.</p> <ol style="list-style-type: none"> 1. Plan for Active Directory and M365 Tenant Consolidation. 2. Plan for Google Workspace migrations. 3. Plan for implementing Intune and Autopilot <p>A scope of work will be drafted for Phase II once the PDS is completed. This scope will show the plan for implementation and migrations of items 1-3 listed above.</p>		<p>The PDS session for Active Directory Consolidation, M365 Tenant Consolidation, and Intune and Autopilot were completed. eGroup ET prepared high-level configuration designs, implementation, and testing plans for each of the components/activities encompassed by the project. Building up on the architecture designs/equipment specifications developed during proposal creation, reflected the unique parameters and attributes of the Alabama Community College System environment. This will be documented in a series of deliverables which will guide the course of future implementation/migration activities. The specific tasks to be performed for each of 24 schools, as eGroup ET outlines a plan for all of them to consolidation into one tenant.</p>		<p>Account Executive Andrea Tirpak</p> <p>Account Technology Strategist Dominick Dennisur</p> <p>Security & Compliance Specialist Cade Scherer</p> <p>Security Specialist Chelsie Thompson</p> <p>CSAM Amy Bandy</p> <p>Partner Chris Genazzio, Account Executive</p> <p>Contractual Value 10,000 uplift to Full A5 M365</p>
