CHALLENGE		SOLUTION		OUTCOMES		TEAM		
<p>Kennewick School District sought to leverage Microsoft's AI services, primarily focusing on the integration of Microsoft 365 Copilot. Before investing in Copilot, a comprehensive evaluation of Kennewick School District's information protection strategies was deemed essential.</p> <p>eGroup Enabling Technologies, in collaboration with the Microsoft account team, successfully secured funding through the CSI Data Security offer to assist with the cost of the evaluation.</p>		<p>eGroup Enabling Technologies conducted the CSI Data Security workshop for the Kennewick School District.</p> <p>Utilizing Purview, the workshop demonstrated effective methods for monitoring data and enhancing the protection of personally identifiable information (PII) belonging to students, faculty, and staff.</p> <p>The participants gained valuable insights into data governance and security best practices, ensuring an extensive framework for safeguarding sensitive information.</p>		<p>Kennewick School District is currently considering the deployment of Purview to enhance their data protection and monitoring capabilities prior to further investigation of Microsoft 365 Copilot. One of the key challenges being faced is their concurrent use of Google Suite, which may complicate data management and compliance efforts. To address this, a comprehensive strategy will be necessary to ensure seamless interoperability between both platforms while maximizing the benefits of Purview's features. This approach will facilitate effective governance of sensitive information and ensure that the customer can fully leverage the capabilities of Microsoft 365 Copilot responsibly.</p>		<p>Account Executive Javier Hernandez</p> <p>Security Specialist Cole Christensen</p> <p>MW Specialist Mojjy Asgari</p> <p>Partner Carl Sweetland, Account Executive</p> <p>Contractual Value \$90,000 in Licensing for 2,500 users</p>
