<p>Pexco's manual imaging processes for desktops were time-consuming and prone to errors. Managing workstations and mobile devices through various third-party tools and MSPs resulted in fragmented systems, making it difficult to maintain consistency and security across the organization. They were seeking a comprehensive solution that could automate imaging processes, integrate workstation and mobile device management, and reduce reliance on external service providers.</p>		<p>Choosing to enlist eGroup Enabling Technologies to facilitate the change, Pexco embarked on a comprehensive overhaul of its IT infrastructure, focusing on implementing an integrated endpoint management solution, Microsoft Intune.</p>		<p>After completing the project, Pexco will have implemented a comprehensive Endpoint Management solution using Microsoft Intune. Initially, 50 devices will be enrolled, with plans to enroll the remaining 450 devices. Additionally, Autopilot will be enabled and configured during the process, allowing for seamless device imaging, particularly beneficial for remote workers spread across the country.</p>		<p><b>Engaged Partner Account</b> Shane Erickson</p> <p><b>Partner</b> Clint Boyleston , Account Executive</p> <p><b>Licensing Value: 0365 E3 to M365 E3 uplift. 12-month revenue increase of \$120,000.</b></p>
