<p>Tailored Shared Services, LLC required a robust data and information protection solution to enhance their security posture. They had been successfully running applications within M365 and were interested in securing their collaboration and file management services. Specifically, they desired to fully understand and begin planning for the capabilities of Microsoft's cloud security solutions for MPIP and DLP. Recognizing the need for expert assistance, they reached out to the Microsoft Account team, who brought in eGroup Enabling Technologies experts to implement a Proof of Concept (PoC) for the Microsoft Purview solution.</p>	<p>Microsoft funded a formal Planning, Design, and Pilot of the Purview solution for Tailored Shared Services, LLC. eGroup Enabling Technologies conducted a thorough review of the of content that Tailored manages and assessed both external and internal requirements for data protection and handling. This comprehensive evaluation included an examination of current governing policies and regulations related to information protection, categorization, and sensitivity classification. Following this review, eGroup Enabling Technologies provided planning and design services to educate them on the options and user tradeoffs involved in securing M365 data using Data Loss Prevention (DLP) and Microsoft Information Protection (MPIP). eGroup Enabling Technologies experts led the deployment of a baseline configuration of Purview in the production environment, ensuring a strong foundation for their data management strategy.</p>	<p>eGroup Enabling Technologies delivered:</p> <ul style="list-style-type: none"><li>• Documentation including any Strategic Advisory findings and recommended next steps.</li><li>• A Planning &amp; Design overview outlining proposed strategies and configurations.</li><li>• Implementation of the designed Microsoft Information Protection (MPIP) and Data Loss Prevention (DLP) configurations.</li><li>• Documentation summarizing the policies, profiles, and decisions behind the configurations, ensuring a clear and comprehensive understanding for ongoing management.</li></ul>	<p><b>Account Executive</b> Angel Mireles</p> <p><b>Specialist</b> Ravi Soni</p> <p><b>Specialist</b> Alex Rapert</p> <p><b>Partner</b> Scott Thayer, Account Executive</p> <p><b>Contractual Value</b> <i>Microsoft Purview Information Protection Licensing Add-On</i></p>
